

RMS Policy for BTST

- In BTST(Buy Today Sell Tomorrow), up to 2 times leverage is available in Equity Cash Segment, as per brokerage plan opted by the client.
- The positions taken in this product have to be squared off by 11.00 a.m. -12.00 a.m. the next trading day. The same if not done by the client, will be squared off by the RMS Team, without the need of any margin call.
- If you buy in BTST and on next trading your cash margin happens to be in debit then buying NRML and CNC will remain blocked for the trading day.

For example: If the client has 1,00,000/- in trading account and he carries position of 2,00,000/-, there it is natural that the next trading day there will be a debit of - 1,00,000/-. In this case of buying, NRML and CNC will be blocked for the trading day.

- The total position taken in BTST will be squared off by the RMS Team on next trading day, irrespective of the funds available in the trading account. For example: If the client has 1,00,000/- in trading account and took position of 2,00,000/-, the next trading day total position of 2,00,000/- will be squared off, irrespective of 1,00,000/- available in account.
- The sole responsibility, in case of short delivery, will be of the client.

If you are agreed by the terms of BTST policy as mentioned above, please kindly express your approval for the trade to be placed. Please mail duly signed this format to rms@wisdomcapital.in. For any further query please call us at 0120-6633205, 231, 235, 286.
